

Voidless Design
Reduces failure modes

Oval Core
30% larger clamping surface
Better Pivot connection clamping
Same great tri-functional spring rate

Fully Interchangeable with TFIII
Less down time and inventory cost

Benefits of a Smart-AXL:

- Unique patented tri-functional pivot bushing
 - Voidless Design
 - Oval Core
 - Fully Interchangeable with TFIII
- On-road applications with minimal off-road exposure; eg. highway use, paved roads, well maintained unpaved roads
- Low-Maintenance, fully wrapped axle connection
- All parts are interchangeable with the industry standard. Less inventory & down time.
- **Ride Height:** 14 - 19 inches
- **Capacity:** 23,000 lbs
- **Weight conscious applications**
 - Specialty Vans - Non-slider
 - Reefers - Non-slider
 - Livestock Trailers
 - Flatbeds/Curtain sides
 - Container Chassis
 - Grain Trailer - Highway use
 - Bottom Discharge Dumps
 - Bulk Tank
 - Liquid Tank
